The World is in Your Hands

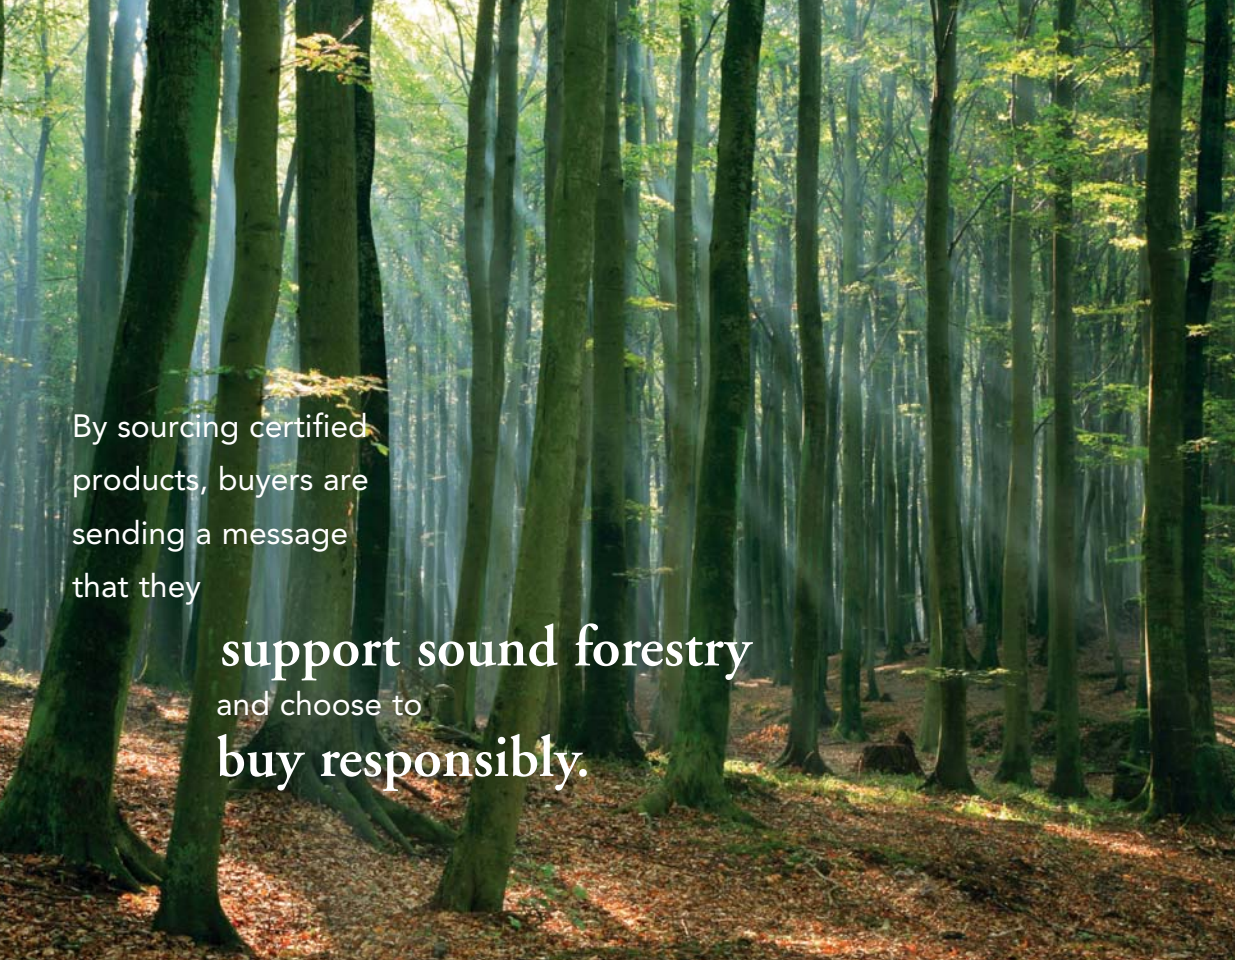

"Governor Ted Strickland recently directed the Ohio Department of Natural Resources (ODNR) to begin the process of attaining third-party certification through both the Sustainable Forestry Initiative (SFI) and the Forest Stewardship Council (FSC) for Ohio's state forests assuring the continued health of these woodlands."

— Andy Ware
ODNR Division of Forestry

All products carrying the FSC and/or SFI logos have been independently certified as coming from forests that meet the principles and criteria of

**forest stewardship,
sustainability, and
conservation.**

By sourcing certified products, buyers are sending a message that they

support sound forestry
and choose to
buy responsibly.

One of the most visible ways a company can **communicate** their own **commitment to sustainability** is in the production of their communication materials. Working with a vendor who is certified by both the Forest Stewardship Council (FSC) and the Sustainable Forestry Initiative (SFI) is the first step.

AGC is a full-service, ecofriendly communication company operating an award-winning design studio, a comprehensive commercial printing facility, and a full-service mailing, fulfillment and distribution center certified by both the Forest Stewardship Council (FSC) and the Sustainable Forestry Initiative (SFI).

Are you doing your part?

The global benchmark for responsible forest management. The FSC Logo identifies products which contain wood from well managed forests certified by Bureau Veritas Certification in accordance with the rules of the Forest Stewardship Council.
Cert no. BV-COC-071007
© 1996 Forest Stewardship Council A.C.

The SFI® program is a comprehensive system of principles, objectives and performance measures developed by foresters, conservationists and scientists, that combines the perpetual growing and harvesting of trees with the protection of wildlife, plants, soil and water quality.
Cert no. BVC-SFICOC-US 07000140
